Zimmerman Remodeling and Construction Staff Awarded Certification as Lead-Safe Renovators

BELLEVUE, OHIO – Zimmerman Remodeling and Construction staffers were recently certified as Lead-Safe Renovators by the Erie County Health Department.

Greg Zimmerman, owner; Dennis Rospert, production manager; Todd Bunce, lead carpenter; Don VanBarg, lead carpenter; and Jason Knauer, lead carpenter, participated in the lead-safe renovator training course on Nov. 5. The training, approved by the Environmental Protection Agency (EPA) and the U.S. Department of Housing and Urban Development (HUD), explains how remodelers, renovators, and painters can protect their employees and homeowners from lead exposure. Presented by the Ohio Center for Lead Abatement with the Corporate for Ohio Appalachian Development, trainers demonstrated the use of personal protective equipment, techniques, set-up and equipment for the Zimmerman Remodeling and Construction staff to work lead-safe.

The course is recommended for contractors who work on homes and building that were built before 1978 and is required for anyone wishing to bid on federally-assisted housing rehabilitation projects.

Zimmerman Remodeling and Construction, Inc., an award-winning, full-service remodeling firm, has been serving Northwest Ohio for more than 58 years. Zimmerman Remodeling and Construction is an active member of several home improvement associations, including the Erie County Home Builders Association, Ohio Home Builders Association (OHBA), the National Association of Home Builders (NAHB), and the North Coast Building Industry Association (NCBIA). The company is a Better Business Bureau Accredited Business, committed to following the highest principles of business ethics and voluntary self-regulation.
